SUMMARY

Full stack developer with 4 years shipping production web products in Node.js, TypeScript and React.js. Most recently team lead at AeonX Digital, where I delivered LogystiX — a SaaS logistics platform — end to end and built SupplierX, a Procure-to-Pay SaaS. Comfortable owning a feature from schema design through API, UI and release: Express and Next.js on the server, React on the client, MySQL and MongoDB behind Docker, Nginx and AWS. Also ran onboarding and Node.js / Python training for new developers.

TECHNICAL SKILLS

Languages	TypeScript, JavaScript, PHP, Python, Java, C, C++
Backend	Node.js, Express.js, Next.js, REST APIs, GraphQL, Socket.IO, Microservices, FastAPI
Frontend	React.js, Next.js, React Native (Android / iOS), Tailwind CSS, Material UI
Databases	MySQL, MongoDB, PostgreSQL, Redis
Cloud & DevOps	Docker, AWS, Nginx, CI/CD automation, Linux distro
Integrations	Shopify API, BigCommerce API, payment gateways

EXPERIENCE

Full Stack Developer — Team Lead | AeonX Digital Solutions Pvt Ltd Sep 2024 – Dec 2025

- Joined as team lead and delivered **LogystiX**, a SaaS logistics platform, from architecture through production launch — owning the Node.js / TypeScript backend and the React front end.
- Lead a team of 4 developers: sprint planning, task breakdown, code review and release sign-off.
- Currently building **SupplierX**, a supplier-management SaaS – purchase order and approval workflows on a multi-tenant Node.js backend.
- Own deployment end to end — Dockerised environments, Nginx, SSL and CI/CD pipelines on AWS.
Stack: Node.js, Express, TypeScript, React.js, Next.js, MySQL, Docker, AWS

Full Stack Developer | DIT Interactive Pvt Ltd Jun 2022 – Aug 2024

- Shipped 12+ client products across e-commerce, healthcare and services — Node.js / Express APIs with React front ends, from requirement to live release.
- Built e-commerce integrations on the Shopify and BigCommerce APIs, including a custom Shopify app and payment-gateway checkout flows.
- Handled deployment for every project server on the team: environment setup, Nginx, SSL, CI/CD automation and release rollouts.
- Onboarded new joiners onto the company stack and taught Node.js and Python to interns at DIT Academy.
Stack: Node.js, Express, TypeScript, React.js, MySQL, MongoDB, Docker, Nginx
